Fable 2 Review

I have been waiting a long time for a return to Albion. The past four years were well spent by Lionhead. Fable II has a great combat system, some excellent atmosphere, a smart experience system, and lots to do. It's only when you start exploring the social aspects that things take a downturn. The expressions system is too goofy for the more serious tone of Fable II and almost every interaction feels artificial. The sandbox elements aren't nearly as enjoyable as the adventure aspects.

ABOUT THIS GAME

Show: [Summary](#) | [Specifications](#) | [Features](#) | [Game Editions](#)

Set 500 years after the original game, Fable II offers even more choices and features, while building on the core gameplay theme of Fable where every choice continually defines who you become, allowing you to truly live the life you choose. Fable II expands upon the scope and depth of the original by adding incredible new features and creating a wider, more complex Kingdom of limitless choices and consequences. Players will have the option to play as a man or woman, get married, have children, and live a life of their own design -- all leading to different destinies.

Release Date: October 21, 2008
 MSRP: \$59.99
 Also on: X360
